UNDP/IBPGR EUROPEAN COOPERATIVE PROGRAMME FOR CONSERVATION AND EXCHANGE OF CROP GENETIC RESOURCES

International Board for Plant Genetic Resources

United Nations Development Programme
The International Board for Plant Genetic Resources (IBPGR)

is an autonomous, international scientific organization established under the aegis of the Consultative Group on International Agricultural Research (CGIAR). Its Executive Secretariat is provided by the Food and Agriculture Organization of the United Nations. The basic function of the IBPGR is to promote and coordinate the international network of genetic resources centers to further the collection, conservation and evaluation and use of plant germplasm and thereby contribute to raising the standard of living and welfare of people throughout the world. The Consultative Group mobilizes financial support from its members to meet the budgetary requirements of the Board.

6. Identification of duplicates

The Working Group expresses its concern over the registration of plant material from the Philippines. The Working Group would like to ensure that the registration data for all accessions are submitted to the Working Group for review. The Working Group recommends that the Secretariat and the FAO, as well as the countries concerned, work together to ensure that the registration data for all accessions are submitted.
