## Tender for subcontractor

### Connecting Horizon 2020 project 'GenRes Bridge' and NGO communities

---

### GenRes Bridge Horizon 2020 Project:

GenRes Bridge aims to strengthen conservation and sustainable use of genetic resources by accelerating collaborative efforts and widening capacities in plant, forest and animal domains.

<http://www.genresbridge.eu>

**Tender objective:** ProSpecieRara represents the NGO on farm diversity management community within the GenRes Bridge consortium and needs support to connect ideas and needs coming from the NGO animal genetic resource (AnGR) conservation community and the NGO plant genetic resource (PGR) community with the strategy development process of GenRes Bridge.

**Maximum funding:** 6000 € for AnGR-community network and 6000 € for PGR-community network, or 12000 € for a European network that covers both animal and plant genetic resources communities.

**Application deadline:** 31 May 2019.

**Contact:** [bela.bartha@prospecierara.ch](mailto:bela.bartha@prospecierara.ch)

## **Expected contributions from the subcontractor**

The subcontractor will:

- Contribute in building a communication channel between the GenRes Bridge project and stakeholders (i.e. transfer information between the project consortium and affiliated organisations).
- Contribute to bring together in a workshop the mosaic of the existing knowledge and strategies to create an opportunity to exchange strategies, scientific and policy approaches and best practices on conservation and use of crop, forest and animal genetic resources.
- Contribute to the development of surveys targeting stakeholder groups aimed to identify current and potential new services for different user groups. (i.e. definition of questions and support the implementation of the surveys)
- Bring the end-users' perspectives to the discussion (i.e. collect perspectives and needs of affiliated organisations and associations and represent these).
- Contribute to formulate the rationale for conservation of genetic resources (i.e. wild crop relatives, local animal breeds and forest genetic resources) at landscape level through demonstration cases.
- Contribute to a panel to identify stakeholders' needs, current level of knowledge and preferences to better tailor the project's products.
- Give feedback on strategy drafts.

## **Who are we looking for?**

The subcontractor should:

- Act as an umbrella organisation for the conservation of agrobiodiversity in Europe.
- Act as a network linking NGO networks working at national or international level in the field of PGR and/or AnGR.
- Have a legal status, accepted by the EU authorities.
- Have some experiences with European projects dealing with genetic resources in the past.

In your offer you should describe how many working months you could invest to fulfil the tasks described above. Which information channels could you offer? Please tell us if you would be able to join one workshop (2-3 days, travel expenses will be covered) in a European city.
