Presentation of Unknown Solanceae 2009

Vegetable Network Meeting 2009 in Catania

Wolfgang Palme, HBLFA für Gartenbau Schönbrunn
Horticultural College and Research Institute

Main Location in Schoenbrunn

Research Station Zinsenhof
The **Schoenbrunn Seminars** have been designed to serve as a platform for expert knowledge, horticultural competence and research results in all branches of horticulture. They connect scientists, gardeners, specialists, consumers and society in general.

Let's explore and experience vegetable diversity
Main Focus of Schönbrunn Seminars in 2009: Unknown Solanaceae
**Solanaceae:**

- More than 100 Species and Varieties: more than 60 different eggplants, furthermore *Physalis, Solanum, Cyphomandra, Solanum melongena, S. aethiopicum*
